JEBZTER CATACUTAN

IT STUDENT | INTERNSHIP APPLICANT

ABOUT ME

Fourth-year BSIT student seeking an IT internship. Built Bitulok Express as the sole full-stack developer, covering its web and mobile interfaces, backend services, and Firebase database. Eager to contribute to real projects and learn from an experienced development team.

PROJECT EXPERIENCE

Bitulok Express

Full-Stack Developer | Capstone Project | 2026–2027

Food and goods ordering and delivery platform for Gabaldon, Nueva Ecija.

- Built customer and rider mobile apps and web dashboards for merchants and administrators.
- Developed account management, menus, checkout, order processing, rider assignment, delivery tracking, and admin monitoring.
- Connected React and React Native interfaces to Node.js and Firebase services, supporting COD and QR Ph payment options.

PHINMA AU Student Credential System

Project Contributor | 2024–2025

Collaborated on the design and implementation of an application for managing student credentials.

PMCCA Hospital Management System

2024

Developed backend and database components to support hospital records and data management.

STRENGTHS

Problem-solving • Attention to detail
Willingness to learn • Team collaboration
